## DRIVEWAY, DRIVEWAY APRON AND SIDEWALK WEEDS

With the cooler months upon us, now it is also a great time to address those unsightly driveway, driveway apron and sidewalk weeds.

To stop weeds from ruining your driveway and street edges, kill existing growth with a non-selective herbicide or concentrated vinegar, clean out the dirt using a tool or water hose, and permanently seal the cracks with a self-leveling concrete sealant or polymeric sand.

### Kill Existing Weeds

- Spray weeds on a warm, dry day.
- Use a commercial non-selective weed killer or high-strength horticultural vinegar.
- Wait a few days for the plant and root system to die completely.

### Clean Out Debris

- Scrape dead roots and packed dirt out of the cracks using a flathead screwdriver or hook knife.
- Flush the remaining dirt away with a garden hose.

Let the concrete or asphalt dry completely.

### Seal the Cracks

- Fill wide expansion joints or gaps with a self-leveling exterior sealant like SikaFlex.

Use polymeric sand for pavers or shallow cracks, then mist it with water to harden.

The best way to prevent future weeds from growing would be to ensure your driveway is properly sealed and if not, institute a weekly preventative maintenance program to combat any potential weed growth. Also, proper lawn maintenance that includes routine edging of the lawn will also help prevent the spread and growth of weeds.

# Benefits of Trees

Trees provide social, communal, environmental, and economic benefits.

Trees provide benefits that promote health, social well-being, and even help your home. Trees serve many purposes in your local community and throughout the entire world.

## Social Benefits

- Trees provide beauty and help people feel serene, peaceful, restful and tranquil.
- Trees significantly reduce workplace stress and fatigue and decrease recovery time after medical procedures.
- Trees may help reduce criminal activity.

## Economic Benefits

- Property values of landscaped homes are 5%– 20% higher than non-landscaped homes.
- Individual trees have value that is affected by size, condition, and function. In general, the larger the tree, the greater the value.
- Air conditioning costs are lower in a tree-shaded home; and heating costs are reduced when a home has a windbreak.
- Well-maintained trees can add value to a home.

## Communal Benefits

- City trees often serve architectural and engineering functions by providing privacy, emphasizing views or obstructing objectionable views.
- Trees may reduce glare/reflection or direct pedestrian traffic.
- Trees may soften, complement, or enhance architecture.
- Trees bring natural elements and wildlife habitats into urban surroundings, all of which increase the quality of life for residents in the community.

## Environmental Benefits

(See figure above)

- A: Leaves filter the air we breathe by removing dust and other particles; absorbing carbon dioxide and various air pollutants such as ozone, carbon monoxide and sulfur dioxide; and release oxygen.
- B: Deciduous shade trees cool homes in the summer and allow the winter sun to heat homes when they lose their leaves.
- C: Trees help cool the environment, working as a simple and effective way to reduce urban heat islands (pavement and buildings in commercial areas cause higher temperatures by absorbing the sun's heat).
- D: Trees can serve as a windbreak. The more compact the foliage on the group of trees the more effective the windbreak.
- E: Trees intercept water, store some of it and reduce stormwater runoff.

## Trees Require an Investment

Trees provide numerous aesthetic and economic benefits, but can have costs. The costs associated with large tree removal and replanting with a smaller tree can be significant. In addition, the economic and environmental benefits produced by a young replacement tree are minimal when compared to those of a mature specimen.

Extending the functional lifespan of large, mature trees with routine maintenance can delay these expenses and maximize returns.

Selecting the right form (shape) to complement the desired function can significantly reduce maintenance costs and increase the tree's value in the landscape.

An informed home owner can be responsible for many tree maintenance practices. Corrective pruning and mulching gives young trees a good start. Shade trees, however, quickly grow to a size that may require the services of an arborist.

Your local garden center, university extension agent, community forester, or consulting arborist can answer questions about tree maintenance, suggest treatments, or recommend qualified arborists. ISA Certified Arborists® have the knowledge and equipment needed to prune, treat, fertilize, and otherwise maintain a large tree.

## What Is a Certified Arborist?

ISA Certified Arborists are individuals who have proven a level of knowledge in the art and science of tree care through experience and by passing a comprehensive examination developed by some of the nation's leading experts on tree care. ISA Certified Arborists must also continue their education to maintain their certification. Therefore, they are more likely to be up to date on the latest techniques in arboriculture.

## THE 25 PHILLY SUBURBS WHERE YOUR HOUSING DOLLAR GOES THE FURTHEST

What communities in the wider region give homeowners the best bang for their buck?

A new analysis looks a wide range of factors.

Suburban areas across the greater Philadelphia metro region were compared in a recent analysis that compares affordability, livability, and housing stability.

Niche's new 2025 Best Suburbs to Buy a House rankings take a data-driven look at home values, property taxes, school performance, and community safety.

The collar counties of southeastern Pennsylvania, including Montgomery, Chester, Bucks, and Delaware counties, dominated the rankings, although one suburb in New Jersey and one in Delaware cracked the top 25.

Niche said it compiles its grades using dozens of public datasets and millions of verified reviews from residents, students, and parents. The goal is to provide accurate, comparable, and credible insights into community livability and housing value.

## PICKLEBALL COURT KEY ACCESS AND COURT RESERVATION SYSTEM

Please be advised that the Newtown Grant Pickleball Court key access control system and court reservation system is officially online. Newtown Grant Residents who wish to utilize the courts will first need to reserve a court and associated court time via <https://www.newtowngrant.org/pickleball>. Court reservations are limited to one resident per day with a maximum time allocation of 90 minutes. Residents may reserve any of the three (3) courts at least 48 hours in advance and please keep your court reservation available electronically in the event of any issues.

Additionally, to eliminate usage of the courts from outside groups, access to the Pickleball Courts will be granted only with a key card (like the outdoor pool). If you already have a key card for the outdoor pool, no action is needed as the key cards will be given access to the Pickleball Courts. However, if you do not have a key card, you will need to obtain one from the Recreation Staff using the same verification process the association uses to issue pool key cards.

(All residents will need to confirm identification and residency. Ideally, a driver's license that has both your photo identification and listed address within Newtown Grant will be sufficient, however, if your license has a different listed address, then you will need to provide either your license change of address card or a copy of your utility bill. Please be advised that if you are a renter, you **MUST FIRST** provide an executed lease agreement in advance to [rob.degeorge@fsresidential.com](mailto:rob.degeorge@fsresidential.com). Once receipt of your lease agreement has been confirmed and a renter's profile created, you then may proceed with confirming identification and residency.)

Please be advised that any resident who misuses the Pickleball Courts or grants access to individuals or groups of individuals who do not reside in Newtown Grant (unless they are a non-resident guest who is participating with you) will lose access privileges and may be subjected to a monetary association fine.

Key cards are issued with the Recreation Staff at the Recreation Managers Office between the hours of 4:00-8:00pm Friday and 12:00pm-7:00pm Saturday and Sunday

## NEWTOWN GRANT EBIKE AND USAGE PUBLIC SERVICE ANNOUNCEMENT

With warmer weather upon us, we are seeing a significant increase in the use of e-bikes, dirt bikes, and ATVs throughout the community. We would like to remind all residents—and especially parents—to ensure these vehicles are operated safely, legally, and respectfully.

Recently, management has received multiple reports of riders traveling unpredictably in and out of roadways, cutting through common areas, and riding across recreational amenities. These activities create serious safety concerns and have resulted in damage to association property.

### **Safety Is Our Priority**

Our community experiences a high volume of vehicle traffic each day, including delivery trucks, contractors, service vehicles, and other large commercial vehicles. These drivers often have substantial blind spots and limited visibility. Children and teens riding quickly, turning unexpectedly, or traveling outside designated areas may be difficult for drivers to see, creating potentially dangerous situations.

### **Community Rules and Legal Guidelines**

To help protect residents and preserve community property, please observe the following rules:

#### **E-Bikes**

- Must remain on community roads, sidewalks, or designated bicycle paths where permitted.
- Are prohibited from all recreational amenities, including tennis and pickleball courts, basketball courts, playgrounds, softball fields, and volleyball courts.
- Are not permitted on landscaped common areas, drainage basins, or other turf areas maintained by the Association.

#### **Dirt Bikes and ATVs**

- Are not street legal and are strictly prohibited anywhere within Newtown Grant.
- May only be operated on designated trails or private property with the express permission of the property owner.
- Newtown Grant does not authorize the operation of dirt bikes, ATVs, or similar motorized vehicles on any Association-owned property.

#### **Age Guidelines**

Please review the attached Pennsylvania micromobility guidelines regarding age requirements and supervision recommendations for e-bike operation.

## NEWTOWN GRANT EBIKE AND USAGE PUBLIC SERVICE ANNOUNCEMENT (CONT:)

### Enforcement and Violations

Operation of motorized vehicles on Association common areas or recreational facilities may result in:

1. Association fines.
2. Immediate suspension of recreational privileges.
3. Responsibility for all costs associated with repairing property damage caused by the violation.

Residents who observe unsafe operation of motorized vehicles on public roads or sidewalks may contact the Newtown Township Police Department directly.

We ask all families to discuss these rules with their children and guests to ensure they are understood and followed.

Thank you for your cooperation in helping keep Newtown Grant safe, welcoming, and well-maintained for everyone.

## NEWTOWN GRANT CLUBHOUSE TRASH ENCLOSURE AND ASSOCIATION PET WASTE TRASH CANS

Please be advised that the clubhouse trash cans, and the association wide pet waste trash cans are not to be used for the disposal of private household trash. Unfortunately, the association has seen an uptick in the amount of private household trash that are being disposed in these cans.

The pet waste trash cans are smaller gallon cans that are emptied twice a week and when someone disposes a bag(s) of household trash in these cans, these cans begin to overflow. Household trash that is generated is the responsibility of that individual household to dispose of with a privately selected trash hauler.

Moving forward, anyone caught illegally disposing household trash in either the clubhouse trash enclosure or the association wide pet waste trash cans will automatically be issued a violation fine of \$350.00

## HOME IMPROVEMENT PROJECTS

Many people take this time to get started on home improvement projects they've been contemplating. With that in mind, here is some information to help assure that your home improvement project runs smoothly...

- Don't forget to please check your clusters Environmental Review Board (ERB) Rules and Regulations first and to please submit ERB Request Forms to your designated cluster association property manager for such exterior structural work that requires it. Each cluster association owner can find their respective cluster ERB guidelines as well as contact information for their property manager on the Newtown Grant Website which is: <https://www.newtowngrant.org/>
- When choosing a contractor, make sure they are registered with the State of Pennsylvania, and they provide you with their HIC (Home Improvement Contractor) number. You can check to see if a contractor is registered by going on the following website: <http://hicsearch.attorneygeneral.gov>
- It's also a good idea to check with other agencies such as the Better Business Bureau and Department of Consumer Protection before choosing a contractor.
- Make sure all required approvals and permits have been secured before you or your contractor begins work. Information and forms can be found on Newtown Township's website [www.newtownpa.gov](http://www.newtownpa.gov) or you can contact the Newtown Township Codes & Zoning Office for assistance. Don't forget, any exterior structural work that requires ERB submission can not start until you have received permission from your cluster association board and respective property manager.
- If your project requires digging, you or your contractor must contact PA One Call ([www.pa1call.org](http://www.pa1call.org) or dial 8-1-1) at least 3 to 10 business days before you dig – IT'S THE LAW. PA One Call will contact the utility companies to mark their lines with paint, flags or stakes. It's important you see marked lines on your property before digging takes place so no accidents occur...keep in mind that careless digging could result in serious personal injury, environmental damage and costly delays.
- Finally, you should always make sure that all the proper inspections are completed including a final inspection before you pay your contractor the remaining balance due upon the job's completion. If you're unsure what inspections have been completed, you can contact the Newtown Township Codes & Zoning Office for this information at 215-968-2800 extension 242 or 265.

## MAILBOX MAINTENANCE

Inspect your mailbox every spring and fall season to ensure that it is in good condition. Remember that snow coming from a plow can be extremely heavy causing a mailbox in poor condition to come down.

Is your mailbox sturdy? Plastic mailboxes tend to become brittle with age. Make sure that the door on the mailbox is closed tightly, if the door is open or missing then the mailbox may “fold” on impact from the snow. Is the wooden post straight and in good condition? The township is not responsible

for a mailbox that is hit due to it leaning into the roadway. Be aware that an old rotted wooden post can easily break from the impact of snow.

Mailboxes (mainly pertain to single family homes in Newtown Grant) should be located so the face of the mailbox is 6-8 inches back from the edge of the roadway. This is according to USPS guidelines. Newtown Township Public Works suggests that you put them as far as 15 inches back from the road edge.

Did you know that Newtown Township is one of the few Townships that have a reimbursement policy for damaged mailboxes during snow plowing season. Please visit their website at [newtownpa.gov](http://newtownpa.gov) for details and requirements regarding the policy.

## DON'T BE A VICTIM, LOCK YOUR CAR!

Often thefts occur overnight from unlocked vehicles. It can happen in commercial parking lots and residential neighborhoods as well.

Offenders look for items that are easily carried and resold. GPS units, cell phones, briefcases, purses, sunglasses, and laptop computers are frequently objects of interest to criminals. Keep in mind that these things are not difficult to pawn or sell. We urge you to do these simple things that can drastically reduce your chances of becoming a victim:

Don't leave valuables in plain sight in your vehicle. Better yet, don't even leave them in the car. Make sure all of the car's windows are shut. Lock your vehicle, even if it is parked in your own driveway. Lastly, remember to take your keys with you. If you leave your keys in the car, anyone can drive it away.

## 9 THINGS YOU SHOULD DO TO YOUR HOME BEFORE FALL STARTS

1. Clean, or possibly replace, your gutters. - You're used to your gutters working properly, if they're clogged, you can end up with a flooded interior and damaged exterior. So, clean them, and if necessary, replace them
2. Check for drafts - Heat loss through windows is responsible for 25-30 percent of the energy heating.
3. Drain your outdoor faucets. - - Drain and disconnect all garden hoses from outside spigots to prevent any water freezing. Not doing this can result in pipes bursting
4. Bring your outdoor furniture in.
5. Fix any cracks in your driveway - When water gets into cracks it freezes, expands, and can make the crack even bigger. Enough small cracks can turn into big cracks, and eventually the concrete can crumble
6. Change your filters - If your filters are clogged, it's harder to keep your home at the temperature you want it to be, which will increase your heating bills.
7. Fertilize your lawn - The best offense is a good defense.
8. Test winter equipment - Seriously, just check it all now and make your life easier later.
9. Change your batteries - Once a year you should be checking to make sure all smoke detectors and carbon monoxide devices are working.

## 15 MUST DOS OF FALL YARD CLEAN-UP

Autumn means football games and visits to the local pumpkin patch. It also means it's time to get your yard ready for winter. The right preparation now will save you time and energy when spring rolls around.

1. **Clean Out Debris.** Fallen leaves and weeds are the perfect place for pests to settle in for the winter. Clear out flower beds to keep the critter away from your house. Throughout the year, remove/treat any associated driveway and/or street weeds.
2. **Clean Up the Vegetable Garden.** After the final harvest, pull out old vegetable plants and remove debris. Now is the time to prep your soil for maximum yield next season.
3. **Trim Rogue Branches.** Trim up dead, damaged, or diseased branches you didn't get to in the summer. Prune out-of-place tree branches that may cause trouble during the winter. You don't want any branches breaking and falling during the snowfall to come.
4. **Clean Out the Gutters.** In many areas, fall and winter are the soggiest seasons. Before the rain and snow start falling, clear out the leaves and other debris from your home's rain gutters. Check for proper drainage, clear out any blockages with a small garden trowel, and rinse with a hose. Safety tip: Clogged gutters can lead to foundation damage and basement flooding. On top of cleaning out the main gutters, check your downspouts as well to make sure they are directing water away from any home's foundation.
5. **Dry Everything Out.** Drain all water from hoses, fountains, drip irrigation systems, and other water features, and store them in a dry place. Water left standing over the winter may damage your equipment if it freezes.
6. **Aerate the Lawn.** Break up soil to keep water from pooling and guarantee that nutrients will reach the roots over the winter. A garden fork will do the job for small yards, but larger yards may require a walk-behind aerator, which should be available to rent for a reasonable price. Best times to aerate: Mid-Atlantic/Central U.S. – Late August to mid-October for these transitional zones with a mix of grass types.
7. **Feed The Lawn..** Send your yard into winter with the nutrients it needs to survive the long, cold sleep. Add a fall lawn fertilizer with high phosphorous content to encourage root growth and enjoy a lush, green lawn come spring.
8. **Rake and Mulch.** Fall leaves are a beautiful sight until they're all over your lawn. Left alone, leaf litter can suffocate the grass. So, rake them up, shred them, and use them as mulch for young trees, shrubs, and flower beds to provide a boost of nutrients, help with weed control, and keep roots warm. You might even be able to skip the raking part if you use a lawn mower to mulch the leaves in your yard. **Dispose of Leaves Responsibly** - If you're not going to use your leaves for mulch, make sure you dispose of them responsibly. Avoid burning them — burns cause air pollution and, depending on where you live, can pose a wildfire risk.

## 15 MUST DOS OF FALL YARD CLEAN-UP (CONT:)

9. **Prune Trees and Shrubs.** Trim any dead branches and cut back overgrown trees and bushes during your fall clean up routine. If you have spring-blooming perennials like lilac or forsythia, now is the time to prune without risking blooms. For fall bloomers, you may want to wait until they've stopped flowering, which can be late winter or early spring. Safety tip: Don't give burglars a place to hide. Pay special attention to bushes, shrubs, and other plants close to your home, especially those near windows. This improves visibility around your home, which makes it less attractive to potential intruders.
10. **Give It One Last Mow.** Set your mower to a low setting and give the lawn a close buzz before winter sets in. This helps the soil dry out more quickly in the spring, which leads to a lusher lawn. Safety tip: Your mower has worked hard all season. Before the final mow, ensure the blades are sharp to prevent accidents caused by added strain, which could lead to mechanical failure.
11. **Divide and Cut Back Perennials.** If your perennials really took off this year, go ahead and spread the love. Divide plants and add them to other beds where they will also do well. This saves money and time in the spring. Fall-blooming perennials like chrysanthemums shouldn't be divided now—wait and divide them in the spring.
12. **Protect Cold-Sensitive Plants.** Keep sensitive perennials, shrubs, and roses in top shape through the cold days of winter. Add mulch to the base and wrap plants in cloth barriers to prevent damage from freezing. Depending on the hardiness of the plant and your climate, you can use a single sheet or blanket or wrap them in a combination of cloth and plastic.
13. **Plant Bulbs, Shrubs, and Fall Annuals.** Some plants do best when planted in the fall. If you want to add new shrubs or spring bulbs like hyacinth, now is the time to get them in the ground. Fall annuals like pansies are also a great addition to keep some color in your yard as other plants go to sleep. Success tip: For the best results, plant bulbs six to eight weeks before the first hard freeze is expected.
14. **Protect the Deck or Patio.** Prevent the growth of mold and mildew by giving the deck or patio a good power wash. If you don't have a pressure washer, you can rent one from a garden store. For a deck, once it is clean and dry, add a weatherproofing preservative to protect the wood from moisture damage over the winter.
15. **Clean Tools and Store Them.** Plants get diseases just like humans and animals. Even if your gardening tools retire for the fall and winter, be sure to clean them thoroughly before storing them for the off season. All-purpose cleaner or rubbing alcohol can disinfect small tools like pruners and loppers while you can use bleach for larger metal tools like shovels.

## NEWTOWN GRANT JACK REPCHECK SOFTBALL LEAGUE CHAMPIONS

Congratulations go out to the Red Team for winning the 2026 Newtown Grant Jack Repcheck Softball League. We would like to thank all the players, managers and umpires for a successful season. Looking forward to 2027!

## BUS SAFETY FOR DRIVERS

With school in session, Newtown Township Police Department urges you to use caution when driving. If you are driving behind a bus, allow a greater following distance than if you were driving behind a car. It will give you more time to stop once the yellow lights start flashing. It is illegal in all 50 states to pass a school bus that is stopped to load or unload children. Please note that the following are reminders and NOT suggestions.

- Never pass a bus if it is stopped to load or unload children
- If the red lights are flashing and the stop arm is extended, traffic must stop
- The area 10 feet around a school bus is the most dangerous for children; stop far enough back to allow them space to safely enter and exit the bus – Pennsylvania law requires at least 10 feet
- You must wait until the red lights have stopped flashing and the stop arm has been withdrawn before moving • Do not move until all the children have reached a place of safety
- Be alert and slow down; children can be unpredictable If convicted, violators of Pennsylvania's School Bus Stopping Law will receive a 60 day driver's license suspension, five points on driving record, and a \$250 fine.

## Summer Skies & Safe Homes: Maintenance Made Easy

July is here, bringing sunshine, family gatherings, and the height of summer storm season. While everyone is enjoying outdoor activities and vacations, it's also a good time to give your home's exterior a little attention. Summer storms can bring heavy rain, strong winds, and unexpected damage to roofs, gutters, and siding. After a storm passes, take a walk around your property and look for signs of concern such as missing shingles, loose siding, fallen branches, or clogged gutters. Addressing small issues early can help prevent larger repairs later. Wishing everyone a safe and enjoyable summer filled with sunshine, celebrations, and memorable moments.
